PROJECT

Spotify UI   **React.js , JavaScript , HTML , CSS,**

I developed a Spotify UI clone using React.js, implementing component-based architecture . I utilized React Router for seamless navigation between different pages, ensuring a smooth user experience. The UI was styled using CSS, HTML . Each component was efficiently rendered to optimize performance, providing an interactive and dynamic interface similar to Spotify.

WEB TEMPLATE   **JavaScript , HTML , CSS , media query**

I designed and developed a responsive web template using HTML, CSS, and media queries. The template follows a clean and modern layout, utilizing flexbox and grid for structured design. Media queries, tablets, and mobile devices. implemented to adjust the layout dynamically based on screen sizes.
